

Through the Clouds

Lion's Share

I never thought that you would leave me
You'd always be by my side
You'd never walk away from me

But then one day I still remember
Just like it was yesterday
You told me now it's over

And through the clouds on a rainy day, I see your face
Always close yet so far away.

And now my days are without meaning
I wake up with dreams of you
Just emptiness tomorrow brings, just emptiness.

And through the clouds on a rainy day, I see your face
Always close yet so far away
It's tearing me apart
And through the clouds on a rainy day, I call your name
Always close yet so far away

And as the days go by I slowly break down and cry
