Through the Clouds

Lion's Share

I never thought that you would leave me You'd always be by my side You'd never walk away from me

But then one day I still remember Just like it was yesterday You told me now it's over

And through the clouds on a rainy day, I see your face Always close yet so far away.

And now my days are without meaning I wake up with dreams of you Just emptiness tomorrow brings, just emptiness.

And through the clouds on a rainy day, I see your face Always close yet so far away It's tearing me apart And through the clouds on a rainy day, I call your name Always close yet so far away

And as the days go by I slowly break down and cry
