Don't You Ever Go Away

Lionel Richie

Hey, can you tell my heart is aching
You, It's only you that's on my mind
I, I can not fight this feeling
Now, now I know why love is blind

From the top of my world to the bottom of my heart
Just the way that you are, you're the one my shining star
Everything that you do, everything that you might say
You're the love of my life, don't you ever go away

Love, I feel my heart could beat forever
Kiss, when it's slow with tenderness
Touch, when we're making love it's heaven
Time, girl with you, there's only bliss

From the top of my world to the bottom of my heart
Just the way that you are, you're the one my shining star
Everything that you do, everything that you might say
You're the love of my life, don't you ever go away
Don't you ever go away

You are everything I wanted
And I would love to love you girl
To the end of time

From the top of my world to the bottom of my heart
Just the way that you are, you're the one my shining star
Everything that you do, everything that you might say
You're the love of my life, don't you ever go away
