

Here Is my Heart

Lionel Richie

Here is my heart you can take it

There's a time in your life for believing
That impossible dream in your heart
When you find in one magical moment
The one you search for from the start
On a night like tonight when you're holding me
I can see in your eyes it's you I've dreamed of

Here is my heart you can take it
Love so strong, can't be wrong
Here is my heart please don't break it
Come what may, here I'll stay
Here is my heart, only for you

If I gave you the keys of a kingdom
If I dressed you in diamonds and pearls
It could never compare to the feeling
We have together, right now
On a night like tonight, you're everything
For once in my life it feels like heaven

Here is my heart you can take it
Love so strong, can't be wrong
Here is my heart please don't break it
Come what may, here I'll stay
Here is my heart, only for you
Here is my heart, now and forever yours

Making love under the stars
Paradise is where we are
Living it up will never stop
Dancing together
Round and round and round we go
Feel the rhythm in your soul
Nothing is going to stop us
When we're dancing together
All night long, forever

Here is my heart you can take it
Here is my heart please don't break it
Here is my heart you can take it
Love so strong, can't be wrong
Here is my heart please don't break it
Come what may, here I'll stay
Here is my heart
Here is my heart come on and take it
Come on and take it
Please don't break it, don't break it girl
Here is my heart
