

Stand Down

Lionel Richie

People are in confusion
The world is full of fear
I see conflict all around us
Can anybody out there hear
I hear the people crying oh ay oh ay

You know we got to
Stand down so everybody can stand up
You know it's
Time for us to show that everybody got to give love

I see the poor and hungry
I see the pain they bear
Where is the hope they long for
Does anybody out there care
I hear the people crying oh ay oh ay

You know we got to
Stand down so everybody can stand up
You know it's
Time for us to show that everybody got to give love

We all must find one reason
We all must find one cause
For everyone to come together
And give this world a voice
Can't you hear the people crying oh ay oh ay

You know we got to
Stand down so everybody can stand up
You know it's
Time for us to show that everybody got to give love
You know we got to
Stand down so everybody can stand up
You know it's
Time for us to show that everybody got to give love
