

Still in Love

Lionel Richie

Gonna tell you a story
Bout a love and all it's glory
Every word I say is true
Every word is meant for you

As I look across the table
In your eyes I see forever
Girl there's no one else but you
No one else will ever do

I'm...I'm...I'm still in love with you

Got my heart so full of laughter
I finally found what i was after
Caught an angel flying low
Now there's one thing you should know

I've been lost and I've been lonely
Till I found you, one and only
You're every song I wanna sing
My joy, my everything

I'm...I'm...I'm...I'm...I'm still in love with you

I want you to know just how I feel
Now that my search for love is over
It would be a lonely life without you

As the years keep getting longer
It only makes my love grow stronger
Just can't go another day
Until I can hear you say

I'm...I'm...I'm...I'm...I'm still in love with you
