

# Tonight Will Be Alright

Lionel Richie

Little darling  
Where you've been so long  
I've been out here thinking about ya  
And the feeling's real strong  
Well the time has come to celebrate  
You and me girl so sounds great  
Cause tonight will be alright  
Oh baby

Little darling, come on  
Let's take a ride  
To a midnight honey town and set it on fire  
We don't want to be mad  
But we have to be cool  
You and me girl  
Let's break all the rules  
Cause tonight will be alright  
Oh my baby, I'm gonna say it again  
I can see us moving on  
Down the highway  
I can see us loving  
Till our hearts desire  
Anything you wanna do girl  
You just tell me  
Cause it's alright, cause it's alright

Little darling, telling you no use  
Keep me thinking about you honey  
My soul's on fire  
Well if you want me girl  
And the games I play  
Anything's alright, anything you say  
Cause tonight will be alright  
Alright, baby I'll say it again, alright  
Alright, alright, alright, baby  
We gonna make it alright  
You and me baby, alright
