## **Up All Night**

## **Lionel Richie**

So I found me a little thing Wanna keep me up all night She told me don't be so uptight She wanna keep up all night Damn she might kill me

I found me a pretty little thing Wanna keep me up all night She says she gonna make things all right She wanna keep me up all night Damn she might kill me

I'm in Brazil where the scene so fire Where the girls and trees can get hotter Everything that I see talks to me Can't believe how the girls be walking

I've been here about an hour They keep saying come talk to me I keep thinking there's one and they say us three Standing there getting out of the shower Turning around showing me the thing got power

Started to converse and I sense a problem And I'm thinking girl I can always solve them But she didn't want to hear it She says she is all mine and I can make him feel it All along I was thinking it was gonna be her plus two Now they're looking like Lionel the joke's on you Next thing I'm feeling is her up and down While the girls are watching

So I found me a little thing Wanna keep me up all night She told me don't be so uptight She wanna keep up all night Damn she might kill me

I found me a pretty little thing Wanna keep me up all night She says she gonna make things all right She wanna keep me up all night Damn she might kill me

I thought there ain't a thing I ain't seen Until she pulled out a banner for me She said whatever you want I know I needed a little vacation But now I may never go home

So I found me a little thing Wanna keep me up all night She told me don't be so uptight She wanna keep up all night Damn she might kill me

I found me a pretty little thing

Wanna keep me up all night She says she gonna make things all right She wanna keep me up all night Damn she might kill me

I thought there ain't a thing I ain't seen Until she pulled out a banner for me She said whatever you want I know I needed a little vacation But now I may never go home

I'm in Brazil where the scene so fire Where the girls and trees can get hotter Everything that I see talks to me Can't believe how the girls be walking

I've been here about an hour They keep saying come talk to me I keep thinking there's one and they say us three Standing there getting out of the shower Turning around showing me the thing got power
