The Walkers

walking on the empty streets alone have no name and have no face. Your Love ... Heaven is burning time is burning out have no name and have no face. Your Love ...

somebody's on your side somebody knows your mind somebody's waiting ... somebody's waiting ... somebody's wanna your heart

walking on the empty streets so long have no trust and have no faith and hope heads are burning hearts in the flames of pain have no name and have no face. Your God ...

somebody's on your side somebody knows your mind somebody's waiting ... somebody's waiting ... somebody's wanna your heart Lipali
