

Beyond The Turmoil

Liquido

I keep your self in mind
Through the corner of my eyes
The swelling like the bad agitation

Will it last for a while
And the day won't go by

On my way, the way back to my hometown
I hit the street short before the close-down
Keep it up, keep it up, not knowing
Oho, oho

And I believe that I would never breakdown
Though I know the dread to meet the unknown
And I know that I will never break it
Oho, oho

I've been around before
Ready for your call
I keep on waiting here, anticipating

Someone made us look fools
Ain't no big deal for you

On my way, the way back to my hometown
I hit the street short before the close-down
Keep it up, keep it up, not knowing
Oho, oho

And I believe that I would never breakdown
Though I know the dread to meet the unknown
And I know that I will never break it
Oho, oho

There's always more than to be said
Like to outlive the universe
Feels more like digging in the dirt
Beyond the turmoil
