

Flip To Play

Liquido

What now
some people say you're so cold
but listen
get that
I cannot merely freeze
she said
how come
your body's aching so bad
but no-one now
can say they've got the guts
or what is the term that they use for such things?
well, nevermind
I'm sure somebody wrote a song about it...
got it?
that mindappearing meltdown
so I say you better watch me now, honey
on purpose getting nuts
and she calls my name
as sweet as she can
and she rules the game
while I will break away
and you know it
and blow it
and throw it all away
and she'll feed that
and see that
I flip myself to play
what now
you cannot break yourself and say so
but guess what
I cannot nearly breathe
so all I can say is that I find you quite attractive, honey
but, I'm sure somebody wrote a book about it...
got it?
and may I just ask
what if
I'd never noticed you at all?
and she calls my name
as sweet as she can
and she rules the game
while I will break away
and you know it
and blow it
and throw it all away
and she'll feed that
and see that
I flip myself to play
