

## Only You

Lisa Ekdahl

Only you  
Can make me feel  
The world can disappear  
Only you  
Make my heart heal  
And make it oh so clear  
We can talk in circles  
Going round in a million ways  
And never understand  
'Cause our words are whispers  
Hidden up in a distant haze  
Like diamonds next to sand  
I don't even know  
What it's all about  
But I get all blissed out  
And then I know  
It's only you
