

## Energy

Lisa Germano

You never wanted this to last  
You'd always rather feel bad  
Who hurts most? is what you wonder  
Who had the hardest day?  
I have to ask you "What's your problem?"  
I don't believe that you love anyone  
Hurting this when you get hungry  
'Cause you don't miss me

Lying by your side  
I can feel your energy  
And I want it to be mine, mine, mine  
'Cause you don't talk like you used to do  
You don't act like you used to  
You don't laugh you to do  
You don't seem to want to  
Give me your engery  
Give it to me  
I want your energy  
Give it to me  
Me me me

You always thought that we don't like you  
Well I do.  
I'd rather be you  
Lying by your side  
I can feel energy  
And I want it be mine, mine, mine  
'Cause you don't talk like you used to do  
You don't act like you used  
And you don't laugh like you used to do  
And you don't seem to want to  
Give me your energy  
Give it to me

I want your energy  
You in me  
I want your energy  
Give it to me  
I want your energy  
Give it to me
