

Late Night Dresses

Lisa Germano

You make me one of your dresses
You make me one of your dresses
You look at me so fragile
Take me to your castle
You feel so good in there
Much much safer in your castle
Mine got lost somewhere

You make me one of your dresses
You make me one of your dresses
You look at me so fragile
Do you make me think you'd better nothing
You feel so good like that
You look at me so fragile
So full of desire

Wide wide open spaces
You make me one of your dresses
Wide wide open spaces
You make me one of your dresses
You make me one of your dresses
You look at me so fragile

Wide wide open spaces
Wide wide open spaces
Take me to your castle
It feel so good in there
Much much safer in your castle
Mine got lost somewhere
You make me one of your dresses
You make me one of your dresses
It's much much safer in your dresses
You make me one of your dresses
