If you saw me Like I see you Should I tell you? What if I do?

I know it lives and does
'Cause I felt so yesterday
But as I live and breathe
It always goes away

If I saw you
Like I see me
Have to warn you silently
I know it lives

It does 'cause I felt so good today And always like again I know it's gonna go away

If I saw me like I see you I would love me What if I do?
