

Keep Your Head To The Sky

Lisa "Left Eye" Lopes

Keep on you so try
Keep on singing let's try
Keep on moving try

Keep your head to the sky
Lift your life and reach high
Wipe your tears and don't cry
You will make it if you try
Keep your head to the sky
Lift your life and reach high
Wipe your tears and don't cry
You will make it if you try

To all my little shorties coming up in school
Don't forget what they said about the golden rule
"Do unto others as you would have them do unto you"
Your life is what you make it, and that's true
And if you don't know what I'm talkin' 'bout
Then listen up to what a beat
You better watch what's coming out'cha mouth
'Cause while you're talkin' 'bout your friends
Showing these messages you sent
Gotta real funny way of comin' back again
I know that life can be a struggle (struggle, struggle)
You stayin' in and out of trouble (trouble, trouble)
Weapons used, killin' our youth
What's up with that?
You feelin' used and abused
Wanna strike back
Then do yourself a favor
Take the anger, flip it around
I'm telling you He's the savior
There's more to life than you may ever know
But you must recognize
What it means to grow

Keep your head to the sky
Lift your life and reach high
Wipe your tears and don't cry
You will make it if you try
Keep your head to the sky
Lift your life and reach high
Wipe your tears and don't cry
You will make it if you try

In the mist of all this confusion, burnt bridges turn into bruises
I conjure flames out in fusion, mental combustion to music
Compells the demons to shatter
Miscontrusing the fantastic
Imagine how clear is to plastics
Time to fault the unnatural
Copin' and dealin', makin' me feel like I'm about to burn any second
Losin' the feelin' like life is depressin'
Generations are burnin' and people ain't the same no more
For real 'cause he drops, she drops, what happend to the fall we rise?
It's nothin' but encouragement, we encourage with pride
If you instill the blessings and return to now for no lie

Unfold your eyes, don't be blinded by the pain and the tears
You never dried
Realize peer pressures of our young adolescents
Bulletproof vestin'
And searchin' for questions
We tell them everything but the truth
For instance there's pride inside
Squash the bullshit and you'll be all right
And we'll make it to that other side

Keep your head to the sky
Lift your life and reach high
Wipe your tears and don't cry
You will make it if you try
Keep your head to the sky
Lift your life and reach high
Wipe your tears and don't cry
You will make it if you try

Now as we step into the light and grab the mic
Let's try to look for difference between wrong and right
You know they listenin' to everything that we resite
But if it's glistenin', that makes it a'ight
We got shorties on the blocks who know they glocks
Believe it or not
We raisin' the last generation through Hip-Hop
We can't forget about Playstation, you don't stop
What's wrong with the nation? It's flip-flop
But we can turn it all around, starting with the sound
Spreadin' love from the Rock 'N Roll to the Underground
We gotta take control of our minds, bodies, and souls
Never fall, never fold, never fold
And then let the truth be told, there it go
Let it show
Open your mouth, and let it flow
Into the depths and through the blackest hole
We can find rainbows and a pot of gold

Keep your head to the sky
Lift your life and reach high
Wipe your tears and don't cry
You will make it if you try
Keep your head to the sky
Lift your life and reach high
Wipe your tears and don't cry
You will make it if you try

Keep your head to the sky
Lift your life and reach high
Wipe your tears and don't cry
You will make it if you try
Keep your head to the sky
Lift your life and reach high
Wipe your tears and don't cry
You will make it if you try

Keep your head to the sky
Lift your life and reach high
Wipe your tears and don't cry
You will make it if you try
Keep your head to the sky
Lift your life and reach high
Wipe your tears and don't cry

You will make it if you try
