[Verse 1] Untouchable look at how you found me I'm lookin' around sayin' these are my friends It's a strange world my enemies are my friends I'm on the same street, same world, same problems Is it different? Same drama, same karma, same mama Is it different? The only difference is me I see inside the truth Feel bad you don't know the day gon' come When God has taken you I see the invisible spirits, walkin' along the physical mind Of a crazy individual Where demons still find it livable I need a hug to hold my soul inside my body I got the secret here Yeah, I should have told somebody 'Cause ever since I've been sayin' things I never meant It's like I was speakin' in tongues, the black breath in my lungs I won't allow it Where the cowards live under the dirt and the flowers Ready to come up in the darkest hour It ain't the courage of my persona You wanna admire it's the faith 'Cause with the faith I can walk through the fire (Now feel me) [Chorus] I know you feel me it's the untouchable Untouchable Make yourself presentable I'm listening to mysteries of the untold Echoing inside my soul I know you feel me it's the untouchable Untouchable Make yourself presentable I'm listening to mysteries of the untold Using the light from my wings that make us fly together [Verse 2] Sometimes I'm feelin' like I'm sinkin' Thinkin' what it's like from on the other side When I look at myself it's like my love had died People thinkin' of gettin' richer I'm usin' the blood of the loves that I lost recently To paint a perfect picture Can you see the future, future endeavors That'll make us better Usin' the light from my wings to make us fly together Guide my people to a place like what we imagined My duty now is to God There's no more beauty pageants With the creator, we getting the chance to thank 'em Me and you finally for what they made us

Is it a game that we still playin'

Look at us now we're rid of grief
Payin' society's debt but life we still obeyin'
Until then I'll follow the path
Where will it lead?
Much in between ashes and dust
We must believe
Trickery ain't trickin' me
I got tricks up my sleeve
They tryin' to market I'm tryin' to make my mark before I leave

[Chorus]

I know you feel me it's the untouchable
Untouchable
Make yourself presentable
I'm listening to mysteries of the untold
Echoing inside my soul
I know you feel me it's the untouchable
Untouchable
Make yourself presentable
I'm listening to mysteries of the untold
Using the light from my wings that make us fly together

Untouchable Echoing inside my soul Echoing inside my soul

[Chorus]

I know you feel me it's the untouchable
Untouchable
Make yourself presentable
I'm listening to mysteries of the untold
Echoing inside my soul
I know you feel me it's the untouchable
Untouchable
Make yourself presentable
I'm listening to mysteries of the untold
Using the light from my wings that make us fly together

Echoing inside my soul Echoing inside my soul
