

# Universal Quest

Lisa "Left Eye" Lopes

It's for the open minded

Now

Now what do you believe?

Who do you receive?

Where do you go next?

And through what exit do you leave?

The questions that I believe confessions go to He

Count your many lessons and blessings that they bring

This is for my breed and all life that is conceived

Energy told me you manifest your destiny

What is energy?

It's what you eat

It's what you breathe

It's what you think

It permeates throughout your being

And serves a link to all other energies

That's anything and everything

Moving light that you have never seen

And light carries information

Without hesitation vibrations glean

Through the constellation, manifestation stimulated

Better destination, total creation realizations

And mental concentration

Alienated from the truth

Is why we conversated

Savin' the nation for the youth

Is for my observation

Are you free or are you guided?

Do you make your own decisions?

Our only responsibility is love (love)

Let's touch on Christianity

I question all humanity

Is God so full of vanity?

That children enter this family

Who haven't yet to see that Jesus is the key

Or suffer this calamity, I cast you down for an eternity

Insanity

You can call me what you want to

But the man in me

Separated from this false reality

Would never be the victim of casualty

For my lack of understanding there's a guarantee

Spirituality has immortality

No matter your status or nationality

What's your locality notice the fallacy

We're all separated by principalities

Billions of galaxies and all you see is this

In the totality of eternal bliss

A life of sin it's all the kin

Are you free or are you guided?

Do you make your own decisions?

Our only responsibility is love (love)

Are you free or are you guided?  
Do you make your own decisions?  
Our only responsibility is love (love)

You see, we like to make things complicated  
You don't have to read books and go to church  
To learn about God  
And find out  
We don't know how to talk to each other  
You know if we all just be quiet  
Then we'll realize that we can really hear each other  
And then you'll realize that you already have the answers

Are you free or are you guided?  
Do you make your own decisions?  
Our only responsibility is love (love)

Are you free or are you guided?  
Do you make your own decisions?  
Our only responsibility is love (love)

Do you make, make your own?  
'Cause you're all on your own  
Do you all make, make your own?  
'Cause you're all on your own

Do you make, make your own?  
'Cause you're all on your own  
Do you all make, make your own?  
'Cause you're all on your own

Do you make, make your own?  
'Cause you're all on your own  
Do you all make, make your own?  
'Cause you're all on your own
