Drops Me Down

I walked away to get wisdom But in the end I just walked home And it drops me, drops me down And I'm not feeling so good again

It was the same song and it's making me sad Cause I think that it's happened And it hasn't been had And it drops me, drops me down And I'm not feeling so good again

And I'm injured again Yeah it's sick and I'm sucked in Yeah I'm at it again It's sick and I'm sucked in It's sick and I'm sucked in

Cause I had some things so dear Slip away and leave me here And it drops me, drops me down And I'm not feeling so good again Yeah, it drops me, drops me down And I'm not feeling so good again
