

## Eno Ambient #5

Lisa Loeb

Turn up the record barely  
I won't let you sit lonely  
Play the second note gently  
Before the first disappears  
Insomniac trends  
The night never ends  
Sweep the dimes off the bookshelves  
Draw the shades down dim  
Go out to the desert, abandon it all  
Insomniac trends  
The night never ends  
Turn the record barely  
I won't let you sit lonely  
Pull the shades down slowly  
Before the light reappears  
The night never ends
