

# Now What

Lisa Marie Presley

Intro:

Verse 1:

When I left and I said goodbye  
Did you know that I meant it, mmmm, that time?  
I guess that I didn't quite realize  
What I was saying goodbye to - whoa, just yet  
The only asphalt to pave my way - that was you  
And damn it if I didn't try to do  
Everything that I was supposed to

Chorus:

And now - what do I do now?  
Oh, I don't know cuz I'm still leaving  
Now - who's gonna save me next time?  
Oh, not you - ooh, for the first time

Verse 2:

And the road to get to the other side of your rainbow  
It wasn't for me - oh, I guess  
I couldn't live - not according to your path  
I believe, at least  
But damn it if I didn't give it a damn good shot  
At least to try and be

Chorus:

And what do I do now  
Oh, I don't know cuz I'm still leaving  
And now - who's gonna save me next time?  
No, not you - ooh, for the first time  
But somehow I'll be alright  
Somehow I'll be alright, ooh

Verse 3:

When I left and I said goodbye  
Did you know that I meant it that time?  
And damn it if I didn't try to do  
Everything that I was supposed to

Chorus:

And now - what do I do now?  
Oh, I don't know  
Oh, I'm leaving  
And now, who's gonna save me next time?  
Oh, won't be you  
Ooh, for the first time  
But somehow I'll be alright  
Somehow I'll be alright
