

## Storm & Grace

Lisa Marie Presley

You are the most beautiful man  
That I've ever known  
Too much to offer  
And too much held close to the bone

Just step on the breaks there  
You got what it takes

You blow me away  
Your storm and your grace  
My heart can't seem to take it  
Your storm and your grace

You have the most beautiful heart  
That I've ever known  
It kills me you can't ever show it  
And a shell has been grown

But stop moving so fast there  
Take your foot off the gas

You blow me away  
Your storm and your grace  
My heart can't seem to take it  
Your storm and your grace

You blow me away  
Your storm and your grace
