

# The Road Between

Lisa Marie Presley

Out on the road between nowhere and hell  
I caught a glimpse of my reflection in you  
But they can't believe I still want you around

Hung on the line between addiction and this  
I can't believe you said I hurt you again  
But I can't afford to let you get away  
And I cannot take the darkness when you stay

You're all I see, yeah  
Oh it's definitely my fault  
You're all I see, yeah  
Uuh but don't come near me at all

How many roads between your world and mine  
How many broken doors and how many fights  
I changed my furniture to make you go away  
I'm still overwhelmed at how much space you take

You're all I see darling  
Oh it's definitely my fault  
You're all I see, yeah  
Oh but don't come near me at all

Uuh, na na na na na  
Uuh, na na na na na  
Uuh, na na na na na  
Uuh, na na na na na

Uuh and I can't have you right now  
And I can't get it right now  
And I can't have you right now  
And I can't get it right now  
Na na na na get it now

You're all I see darling  
And it's definitely my fault  
You're all I see, yeah  
Uuh but don't come near me at all  
This is, this is definitely my fault

Uuh, na na na na na  
Uuh, na na na na na  
Uuh, na na na na na

Hung on the line between addiction and this  
I can't believe you said I hurt you again
