## **I Remember Love**

**Lisa Mitchell** 

Love is fleeting Take my hand Hurt in [?] Nothing matters Don't forget me Free your [?] heart Let it all out See your red eyes You don't write back Don't forget me Bodies like cases I remember love Hold us, hold us up like mice I remember love, I remember love I remember, I remember love I remember, I remember love I remember, I remember love Riding Friday All the way home Flying highway See them take flight Don't forget me Don't forget me Our bodies like cases Oh, I remember love Hold us, hold us up like mice I remember love, I remember love I remember, I remember love
