

## Be Mine

Lisa Stansfield

My sweet joy.

It's the little things you do that make me love you,  
The way you touch my hair,  
The way you care,  
And when night-time comes around,  
I fall asleep with you,  
So I can dream the day all over again.

With sweet sweet love runnin' through me,  
I give you everything I have and everything I can be,  
I can't stand the thought of ever losing you,  
So baby stay with me.

May you always be mine,  
Babe I want you for all time,  
May you always be mine

From the moment you take hold of me,  
I wake up,  
You wake up my very soul,  
Time just flies away the more you kiss me,  
May we forever share this love affair.

May you always be mine,  
Babe I want you for all time,  
May you always be mine

Babe I can't explain that it's like walking in the rain,  
And I thank God for the day I found you,  
We've got the lot with the love we've got,  
So let it stay...

May you always be mine,  
Babe I want you for all time,  
May you always be mine
