

# I've Got Something Better

Lisa Stansfield

You've got somethin' on your mind  
But I've got somethin' better

Come closer, much closer  
Kiss and confide  
One taste and be sure you'll find sugar inside

I feel your caress  
I'm undressed by your eyes  
There'll be no inhibition tonight

Open up, show me love, turn up the music  
Tear me up, turn me on  
We got the bomb - baby let's use it  
Open up, show show love, turn up the music  
Tear me up, turn me on  
We got the bomb.

Baby close your eyes, take your time, relax awhile  
'Cus know when you do it boy you do it to the letter  
Stop wasting precious time imagining what we can do  
You've got somethin' us your mind  
But I've got somethin' better  
You've got somethin' us your mind  
But I've got somethin' better

Take what you're thinking and times it by ten  
Now you know where you're coming from  
Let it begin  
Tell me your fantasies, I'll show you mine  
There'll be no inhibition tonight

Open up, show me love, turn up the music  
Tear me up, turn me on  
We got the bomb - baby let's use it  
Open up, show show love, turn up the music  
Tear me up, turn me on  
We got the bomb

Baby close your eyes, take your time, relax awhile  
'Cus know when you do it boy you do it to the letter  
Stop wasting precious time imagining what we can do  
You've got somethin' us your mind  
But I've got somethin' better  
You've got somethin' us your mind  
But I've got somethin' better
