

So Natural

Lisa Stansfield

It's so natural, the way you touch me
So natural, the way you run your fingers through my hair
It's so natural, the way you make me feel like I'm a lady
Natural, the way you care, it's so natural

When I feel low, you pull me higher
You warm me up, set me on fire
Well there's no way in this world
I could ever be without you

You come home and I am waiting for you
To come over and give me hungry kisses
Of the love, of the love, of the love so true
And there's no way in this world
I could ever be without you

It's so natural, the way you touch me
So natural, the way you run your fingers through my hair
It's so natural, the way you make me feel like I'm a lady
Natural, the way you care, it's so natural

With hands so warm, you touch my very soul
Pull me closer, so I won't feel the cold
Just love, love, your love, so true
And there's no way in this world
I could ever be without you

I'm swimming in the love you give me
It's so natural

So true, so true, so true, so true
I'm swimming in the love you give me

It's so natural, the way you touch me
So natural, the way you run your fingers through my hair
It's so natural, when you make me feel like I'm a lady
Natural, the way you care, it's so natural
The way you care, it's so natural
Baby, baby, baby, baby

There's no way in this world
I could ever be without you
Of the love, of the love, of the love so true
No there's no way in this world
I could be without you
