

# The Crown

Lisa Stansfield

He will always be my man to me  
And that is why I'll never let it be  
You see I know the man like the back of my hand girl  
It's just not worth it  
Baby you are not defenced and you won't be the last

If you wanna stick around  
I'll tell you what  
You'll never finish what you started  
You're stepping on my ground  
Like you or not  
He'll only leave you with a broken heart  
You'll never leave it down  
He'll use you up like I always said he would  
This is the battle ground  
If you want a way of the crown

It's not just about me say even in face  
It's all about your dignity and your grace  
I know you don't wanna listen and you won't believe  
But I can see what's coming  
Oh you'll never understand  
So better get out while you can

If you wanna stick around  
I'll tell you what  
You'll never finish what you started  
You're stepping on my ground  
Like you or not  
He'll only leave you with a broken heart  
You'll never leave it down  
He'll use you up like I always said he would  
This is the battle ground  
If you want a way of the crown

You'll never leave it down  
If you want a way of the crown

Don't throw your young heart to the lions  
You'll only end of crying  
Then you'll only have yourself to blame  
Don't keep pretending you're a woman, little girl  
This just ain't your world  
And you'll never take my place

No, baby  
If you wanna stick around  
Finish what you started  
You're pissing on my ground  
You'll never leave it down  
He'll use you up like I always said he would  
It's a lesson you should learn  
Don't wanna get your fingers burned

If you wanna stick around  
I'll tell you what  
You're stepping on my ground

Like you or not  
He'll only leave you with a broken heart  
You'll never leave it down  
He'll use you up like I always said he would  
This is the battle ground  
Ooh go home, little girl
