

# Wish It Could Always Be This Way

Lisa Stansfield

Don't touch me, just close your eyes

I wish it could always be this way  
To always cherish the love we make  
Because if life is what we make it  
Then let's make it, always be this way

Into the sunrise, you're still lying by my side  
Baby there's no need to touch me  
'Cos I can feel your eyes  
They're burning through me, burning through me  
Stronger than the morning light

Ooh the closer you get, the faster my heart beats  
Don't stop yet 'cos there's lots more we can see  
We'll be makin' love, makin' love  
While the sun shines

Oh, I have spent my whole life long just trying to find you  
Now I don't wanna let it slip away

Wish it could always be this way  
To always cherish the love we make  
Because if life is what we make it  
Then let's make it, always be this way

You're my darling and you'll always be  
Oh my hmm hmm hmm  
My everything  
We'll be makin' love makin' love

I have spent my whole life long just waiting to find you  
Now I'm not gonna let it slip away

Wish it could always be this way  
To always cherish the love we make  
Because if life is what we make it  
Then let's make it, always be this way

Wish it could always be this way  
To always cherish the love we make  
Because if life is what we make it  
Then let's make it, always be this way

I have spent my whole life long just trying to find you  
Now I'm not gonna let it slip away  
Slip away, b-b-b-baby

Wish it could always be this way  
To always cherish the love we make  
Because if life is what we make it  
Then let's make it, always be this way

I wish it could always be this way  
To always cherish the love we make  
Always be this way

Wish it could always be this way  
To always cherish the love we make  
Because if life is what we make it  
Then let's make it, always be this way
