

Everywhere I Go

Lissie

And I'll fall on my knees
Tell me how's the way to be
Tell me how's the way to go
Tell me all that I should know

And I'll fall on my knees
Tell me how's the way to go
Tell me how's the way to be
To evoke some empathy

Danger will follow me
Everywhere I go
Angels will call on me
And take me to my home
This tired mind just wants to be led home

And I'll fall on my knees
Tell me how's the way to go
Tell me how's the way to see
Show me all that I could be

And I'll fall on my knees
Tell me how's the way to be
Tell me how's the way to go
Tell me why I feel so low

Danger will follow me
Everywhere I go
Angels will call on me
And take me to my home
These tired eyes just want to remain closed

I don't see clearly
Can't feel nothing
Can you hear me

And I'll fall on my knees
And danger will follow me everywhere I go
Angels will call on me and take me to my home

And danger will follow me everywhere I go
Angels will call on me and take me to my home

And danger will follow me everywhere I go
