

# Oh Mississippi

Lissie

Oh mighty river  
The Mississippi  
Turbulent waters  
Lull me to sleep

Please take my hand  
I will go gently  
Your arms around me  
You'll be my man

The leaves are changin'  
I cross this road  
To make my last walk  
In that warm sunshine

Oh mighty river  
Oh Mississippi  
Oh all the troubles your banks have seen

Carry these stories from north to south  
But round these parts you're westward bound

The factories closin'  
Kids have grown so fast  
Lift up their woe please  
As you flow past

Oh witness river  
You have seen it all  
Now do your waters  
Have room for one more

Oh endless river  
As you transcend  
Please take me with you  
Far from this land
