

I've got a feeling like I'm almost there
And I think I might belong somewhere
As I cut these ties, I realize
I've been disbelieving in my own heart
And the deceiving is the hardest part
And I feel the knowing that I must be going

Ojai, I don't wanna leave you behind
But you know that I made up my mind
So goodbye; I know I'm gonna see you again
And I'll be thinking of you until then, Ojai

I miss the seasons, I miss the land
I miss them for reasons I don't understand
I took it all for granted
I bloomed where I was planted

Ojai, I don't wanna leave you behind
But you know that I made up my mind
So goodbye; I know I'm gonna see you again
And I'll be thinking of you until then, Ojai

Ojai, I don't wanna leave you behind
But you know that I made up my mind
So goodbye; I know I'm gonna see you again
And I'll be thinking of you until then, Ojai
