

They All Want You

Lissie

It was dark and maybe you couldn't see me
Braiding her hair, her name is Tiffany
I know that girl she lives on my street
And she wants you, they all want you
The kind of girls only after one thing
You want her arm to see and be seen
To show you chose her over me
Like she won you
Baby I warned you

But they all want you when you're shining
Like a bar fly who's always buying
The one guy who never says no
But I'm the one that sees you when the party people leave you
And my heart breaks watching it takin' it's toll
Ah

Up on stage with your precious guitar
Everyone wants to be where you are
To bathe in the glorious light of your star
They all want to
It's cause they want you
It's closing time when your boys show up
They got a keg of beer in that pick up truck
Egging you on to go out an get drunk
You know you want to
Baby I warned you

But they'll all want you when you're shining
Like a bar fly who's always buying
The one guy who never says no
But I'm the one that sees you when the party people leave you
And my heart breaks watching it takin' it's toll

You said I was different; stood in a class of my own
You said you'd follow me home
But here I am all alone
Because they got you; Boy your shining
Like a bar fly who's always buying
The one guy who never says no
But I'm the one that needs you when the party people leave you
And my heart breaks baby it's takin' it's toll

They all want you
But I do too
