

Take me back to a place
Summertime, Anaheim
I can't wait to see your face
I'm coming back, I'm coming back

Yeah, we were young and feeling high
Living like we're never gonna die

There you are, falling star
Bringing us together
Tearing us apart
Carry on, broken hearts
Nothing lasts forever
Here we are

Throwing back with my friends
Once again, Fullerton
Missing you, it's sinking
We can't go back, we can't go back

Yeah, feeling like we're bulletproof
Living like there's something left to prove

There you are, falling star
Bringing us together
Tearing us apart
Carry on, broken hearts
Nothing lasts forever
Here we are

Yeah, we were young and feeling high
Yeah, living like we're bulletproof
And feeling like we're never gonna die

There you are, falling star
Bringing us together
Tearing us apart
Carry on, broken hearts
Nothing lasts forever
Here we are
(We're all alright)
