

## Everything's Cool

Lit

R: I hit the city by 3 and the bottle by 4  
I'm thinkin' 'bout the shit that I pulled the night before  
And by the party at midnight everything is cool again  
Cuz you'll be back with me then

I'm carryin' the weight  
The weight of the world  
That doesn't wanna wait for me  
Well it spins me all around  
And then it spits me out  
Recycled like a Christmas tree

Well you picked me up  
When no one would  
Convinced me baby it's all good  
You're doin' it again the way you always could  
Now everything is understood  
Never had a girl like this

R:

The walls are closing in  
It's closing time again  
I see it through my champagne glasses  
Terrifyin' how the time is flying now  
At least we're sitting in First Class  
Never wanna be like them

R:

I'm carryin' the weight of the world  
That doesn't wanna wait for me  
I'm carryin' the weight of the world  
You're carryin' me  
I never had a girl like this

I hit the bottle by 6 and another cigarette  
I'll probably do things that I know I should regret  
And by the party at midnight everything is cool again  
Cuz you'll be back with me then

You'll be back with me then (3x)
