

# Miss You Gone

Lit

I told you not to call me  
Your voice it won't control me  
I try to drink you away  
But you're always hanging me over

I knew you'd try to find me  
I really wasn't hiding  
You've got my back to the wall  
You whisper over my shoulder

I know what you like

I love it when you're leaving  
I can't hear you screaming  
Something must be wrong  
Cuz I miss you gone  
Yeah I love the goodbyes  
Right before the sunrise  
Knew it all along  
Now that you're here  
I miss you gone

We probably shouldn't do this  
We've got the scars to prove it  
I see the look in your eyes  
You know that I can't refuse it

You've got a one track mind  
You've got me losing mine  
You follow me to my car  
You tell me over and over

I know what you like

I love it when you're leaving  
I can't hear you screaming  
Something must be wrong  
Cuz I miss you gone  
Yeah I love the goodbyes  
Right before the sunrise  
Knew it all along  
Now that you're here  
I miss you gone
