

# Moonshine

Lit

I can't remember what it is you did  
Somewhere along the way I'm giving in  
I know I feel you when you're not around  
Just like the angles from underground

What am I trying to say

The thing that I don't get about you  
The way it makes me feel around you  
You make the wrong seem right  
Any old time of night  
What is it I

I get so nervous when I hear the phone  
You blocked the number so I never know  
I can't forget the way you sound  
And now I can't remember  
How I did without

What am I trying to say

The thing that I don't get about you  
The way it makes me feel around you  
You make the wrong seem right  
Any old time of night  
How is it when it rains at nighttime  
You turn the water into moonshine  
And make the sun shine light  
Carry on through the night

I can't remember what it is you did  
Somewhere along the way I'm giving in  
I never meant to fall this hard again  
Good things are all good until the end

What am I trying to say

The thing that I don't get about you  
The way it makes me feel around you  
You make the wrong seem right  
Any old time of night  
How is it when it rains at nighttime  
You turn the water into moonshine  
And make the sun shine light  
Carry on through the night
