

Right This Time

Lit

Fell in love, felt alive,
Fell apart, even lost my mind
About a thousand times.
Can't say I didn't try,
Learn to run, never learn to fly
Couldn't get that high

Broken hearts, lonely roads,
Where it starts no one knows, but
I'm holding on

'Cause I, I think I got it right this time
Baby, it was worth the ride
You're a lonely road, how could this be wrong?
I think I got it right this time

Take it slow or make it fast,
Either way, we're gonna make it last
And never look back.
I can see me with you and it's crazy
All the crazy things I wanna do to you

'cause I, I think I got it right this time
Baby, it was worth the ride
You're a lonely road, how could this be wrong?
I picked rose before, but I
I think I got it right this time
Baby, it was worth the ride
You're a lonely road, how could this be wrong?
I think I got it right this time

Fell in love, felt alive,
Fell apart, even lost my mind
About a thousand times

I think I got it right this time
Baby, it was worth the ride
You're a lonely road, how could this be wrong?
I picked rose before, but I
I think I got it right this time
Baby, it was worth the ride
You're a lonely road, how could this be wrong?
I think I got it right this time
Yeah
I think I got it right this time
I think I got it right this time
