

# You Tonight

Lit

Take another look  
And do you like what you see  
I've been standing here watching you watching me  
We can skip the get to know you tell me everything  
I dont beven need to know the truth  
Cuz all I wanna do is take a chance on you

The party aint over  
But it's time to go  
Let's slip out the back  
And I'll drive you home  
We'll lock up the bedroom  
And leave on the lights  
I want you to see everything  
When I ... you tonight

Take another step  
A little closer to the edge  
I'll be waiting here just hanging on by a thread  
You dont need to say another word it's understood  
Turn around again I love the view  
And all I wanna do is put my hands on you

The party aint over  
But it's time to go  
Let's slip out the back  
And I'll drive you home  
We'll lock up the bedroom  
And leave on the lights  
I want you to scream out my name  
When I ... you tonight

I've been standing here watching you  
And all I wanna do is put my hands on you

The party aint over  
But it's time to go  
Let's slip out the back  
And I'll drive you home  
We'll lock up the bedroom  
And leave on the lights  
I want you to see everything  
And I want you to scream out my name  
And I don't want you missing a thing  
When I ... tonight  
When I ... you tonight
