

# Branded

Lita Ford

I don't wanna fight with you no more  
Unless you put your fist through the wall  
I don't wanna hear you screaming my name  
I'm so tired of playing the same old game

I don't wanna fight with you no more  
Unless you put your fist through the wall  
I don't wanna hear you screaming my name  
I'm so tired of playing the same old game

Yeah you left your mark on me  
That you know is branded  
It was an insecurity  
So you had me grounded  
You really got your hooks in deep  
Now didn't you?

I took a little ride  
On your hell-bound train  
It was a really bad trip  
It nearly drove me to my grave  
And too much time was going by  
And you're still here  
It's time for me to fly

You never wanted me to leave  
So you had me branded  
Your love was just skin deep  
So you had me branded  
Thought I'd be yours for eternity  
So you had me branded  
You really got your hooks in deep  
Now didn't you?

When we first met  
You said let down your wall  
Let me into your heart  
We can have it all  
You were a real smooth talker  
I opened up my heart  
So you can rip it apart  
Oh-oh  
Just like Satan  
Obsession, possession forever

You never wanted me to leave  
So you had me branded  
Your love was just skin deep  
So you had me branded  
Thought I'd be yours for eternity  
So you had me branded  
You really got your hooks in deep  
Now didn't you?  
Yeah  
Branded!
