

# Hammerhead

Lita Ford

He sees himself as a warrior  
In a world that doesn't understand  
A demon light fills the eyes  
Of this mechanical man

He's a living, breathing nightmare  
He's twisted and he's mean  
In his head, the walking dead  
Are his secret war machine

Oh, oh, hammerhead

He was just a lonely boy  
Before the demons took control  
His sanity, humanity  
Lost somewhere long ago

Now the poisons in his memory  
Are clogging up his veins  
And the loneliness like a devil's kiss  
Has gone straight to his brain

Oh, oh, hammerhead  
(Hammerhead)  
Oh, oh, hammerhead

Now he's lost within his madness  
And more and more each day  
The metal man turns his hand  
To the price the world must pay

Hammerhead  
Oh, oh, hammerhead  
Oh, oh, hammerhead
