

# Holy Man

Lita Ford

Lead me into temptation  
Save me with your healing hands  
Show me the fires of creation  
Baby, be my Holy man

Flames in the garden of Eden  
Heaven in pieces at my feet  
I faced the raging ruin

Of a million sleepless nights  
I need to rest my weary head  
On your resurrection bed

Storms across the horizon  
Whirlwind tuggin' at my sleeve  
Just when my heart was turning

To an icy shade of blue  
You came into the night, held me so close  
How the hell ya found me God only knows

Lead me into temptation  
Save me with your healing hands  
Show me the fires of creation  
Baby, be my holy man

Lies in the valley of evil  
Like shadows fallin' 'cross my eyes  
When there's no sanctuary

You came and turned the storms away  
You made the darkest night in my life  
Into Judgement Day

Lead me into temptation  
Save me with your healing hands  
Show me the fires of creation  
Baby, be my holy man

I see forever in your eyes  
For your love  
I would make any sacrifice, yeah

Lead me into temptation  
Save me with your healing hands  
Show me the fires of creation  
Baby, be my holy man

Lead me into temptation  
Save me with your healing hands  
Show me the fires of creation  
Baby, be my holy man

Lead me into temptation  
Save me with your healing hands  
Show me the fires of creation  
Baby, be my holy man

Lead me into temptation  
Save me with your healing hands  
Show me the fires of creation  
Baby, be my holy man
