Holy Man

Lead me into temptation Save me with your healing hands Show me the fires of creation Baby, be my Holy man

Flames in the garden of Eden Heaven in pieces at my feet I faced the raging ruin

Of a million sleepless nights I need to rest my weary head On your resurrection bed

Storms across the horizon Whirlwind tuggin' at my sleeve Just when my heart was turning

To an icy shade of blue You came into the night, held me so close How the hell ya found me God only knows

Lead me into temptation Save me with your healing hands Show me the fires of creation Baby, be my holy man

Lies in the valley of evil Like shadows fallin' 'cross my eyes When there's no sanctuary

You came and turned the storms away You made the darkest night in my life Into Judgement Day

Lead me into temptation Save me with your healing hands Show me the fires of creation Baby, be my holy man

I see forever in your eyes For your love I would make any sacrifice, yeah

Lead me into temptation Save me with your healing hands Show me the fires of creation Baby, be my holy man

Lead me into temptation Save me with your healing hands Show me the fires of creation Baby, be my holy man

Lead me into temptation Save me with your healing hands Show me the fires of creation Baby, be my holy man

Lita Ford

Lead me into temptation Save me with your healing hands Show me the fires of creation Baby, be my holy man
