## All the Way Down

Little Big Town

Rock me like a lullaby, Roll me like a wheel I'm going down, down, all the way down Love me like a superstar, Play me like a steel I'm going down, down, all the way down Down, down, falling all the way down

Stand, where the good love lies Be my man, I'll be your alibi Wonderland, wanna give it a try Let it ride

Rock me like a lullaby, Roll me like a wheel I'm going down, down, all the way down Love me like a superstar, Play me like a steel I'm going down, down, all the way down Down, down, falling all the way down

Here, where it all feels right Crystal clear, as a southern sky Oh my dear, you set my love on fire Every time

Rock me like a lullaby, Roll me like a wheel I'm going down, down, all the way down Love me like a superstar, Play me like a steel I'm going down, down, all the way down Down, down, falling all the way down

You gotta show me now Show me now You gotta show me now

Stand, where the good love lies Be my man, I'll be your alibi Wonderland, wanna give it a try Let it ride Let it ride

Rock me like a lullaby, Roll me like a wheel I'm going down, down, all the way down Love me like a superstar, Play me like a steel I'm going down, down, all the way down Down, down, falling all the way down Down, down, falling all the way down
