Good as Gone

Little Big Town

There's a cold feelin' Runnin' up and down my spine It seems to say "we're just wastin' time"

Like its a bad movie One I wish I'd never seen The plot gets old, do you know what i mean? Dont try to tell me it ain't what it is

I'm good I'm good at seein' the signs I'm good at readin' between the lines No use in hangin' on 'Cause you're good to go And baby I'm good as gone

On a lost highway I don't know how I got where I am Take the next slpitsville exit ramp It's like a cheap vacation One I thought we planned very well Now we've checked out the lovely love hotel Dont't try to tell me it ain't what it is.

I'm good I'm good at seein' the signs I'm good at readin' between the lines No use in hangin' on 'Cause you're good to go And baby I'm good as gone
