

Lean Into It

Little Big Town

These days are filled with trouble
And the nights feel like they're all getting longer
These days are dark and gray
Like that storm rolling in across the water

There's a strong wind blowing
I push on it pushes back
It's a hard time
But I know I'll get through it
Just gotta lean into it

This ain't where I thought I'd be
If I could I'd stop it now and I'd rewind it
But this ain't where I'm gonna fall
If there's a way to fight
I know I'm gonna find it

There's a strong wind blowing
I push on it pushes back
It's a hard time
But I know I'll get through it
Just gotta lean into it

Just gotta lean into it

I keep going even though

There's a strong wind blowing (there's a strong wind blowing)
I push on (I push on) it pushes back
It's a hard time (it's a hard time)
But I know I'll get through it
(Yes I will)
Just gotta lean into it
Just gotta lean into it
