## Lean Into It

**Little Big Town** 

These days are filled with trouble And the nights feel like they're all getting longer These days are dark and gray Like that storm rolling in across the water

There's a strong wind blowing I push on it pushes back It's a hard time But I know I'll get through it Just gotta lean into it

This ain't where I thought I'd be If I could I'd stop it now and I'd rewind it But this ain't where I'm gonna fall If there's a way to fight I know I'm gonna find it

There's a strong wind blowing I push on it pushes back It's a hard time But I know I'll get through it Just gotta lean into it

Just gotta lean into it

I keep going even though

There's a strong wind blowing (there's a strong wind blowing) I push on (I push on) it pushes back It's a hard time (it's a hard time) But I know I'll get through it (Yes I will) Just gotta lean into it Just gotta lean into it
