

# Novocaine

Little Big Town

Baby its alright (alright)  
Somehow were gonna get to the bottom of this  
If it takes us all night (all night)  
Somehow were gonna find that moment of bliss  
Come one let me kiss and make it better  
Cause better ain't the best I can do

Ill take your wrong and make it right  
Take your load and make it light  
Dry your eyes and you can bet  
Any hurt that you remember  
I'm gonna help you forget  
Make you numb to the pain  
Hey I'll be your Novocaine

Well have us a good time (good time)  
Baby let me pull you out of the shade  
Meet me in the sunshine (sunshine)  
Do you wanna come out and play  
Baby there's been a lot of talking  
Talking ain't all I wanna do

Ill take your wrong and make it right  
Take your load and make it light  
Dry your eyes and you can bet  
Any hurt that you remember  
I'm gonna help you forget  
Make you numb to the pain  
Hey I'll be your Novocaine

Come on let me kiss and make it better  
Cause better ain't the best I can do

Ill take your wrong and make it right  
Take your load and make it light  
Dry your eyes and you can bet  
Any hurt that you remember  
I'm gonna help you forget  
Make you numb to the pain  
Hey I'll be your Novocaine  
(2x)

Make you numb to the pain  
Hey I'll be your Novocaine
