Quit Breaking Up with Me

Little Big Town

You say its over
With a middle finger
But then you're calling before I turn off my ringer
And I answer cuz I love to hear you're sorry for the 400th time

Well,
You try to leave me but you cant do it
cuz im the only one who puts up with your
I know that secretly you love making out with me right after we
  fight

Well,
We're always fixing something that was never broken
We're on and off again like sobriety
Get back together every time you're done throwing a fit
So when you gonna quit
breaking up with me

Well,
You think by now
We'd finally get along
But we only feel right when everything is going wrong
and we're back in the habit of pressing each other up and down

Well,
I hate your daddy, you hate my momma
but one thing we dont seem to hate is all the drama
but we never can remember what the hell we were yelling about

Well,
We're always fixing something that was never broken
We're on and off again like sobriety
Get back together every time you're done throwing a fit
So when you gonna quit breaking up with me

I don't know where you think you're going
because you're stuck with me forever and you know it
We're always fixing something that was never broken
We're on and off again like sobriety
Get back together every time you're done throwing a fit
So when you gonna quit breaking up with me
yeah
When you're gonna quit breaking up with me
You know it
