

# Stay All Night

Little Big Town

Wish we could stay all night  
Well, we're gonna have to pay for a hotel, oh well  
Least the drinks are free  
Oh, I don't know if it's right but tonight I'm tyin'  
One on, you better believe it

The weekend is in, show time is now  
Tell all your friends and bring your mom and them  
We'll even put you on a list for a small price  
So nice to see your face again  
Yeah, it feels good to finally be feelin' right  
I wish we could stay all night

We're burnin' rubber late for the load-in  
Rollin' through the radio, passin' the time  
Just enough gas to get there, say a prayer  
Lord, let this old Ford fly  
It ain't the fame, the money, the game, gettin' your  
name on the big marquee  
It's all about the song that makes your heart thump,  
feet stomp  
The way it's supposed to be  
Feels good to finally be feelin' right  
Wish we could stay all night

Oh, wish this drink would never end  
Hell, I just caught my second wind  
Why don't the good stuff ever last  
It comes and it goes and it goes so fast  
They're shuttin' it down and turn on the lights, yeah  
Wish we could stay all night

Wish we could stay all night  
Can't go home but you can't stay here  
Wish we could stay all night  
Go on and pop the top on one more beer

Wish we could stay all night  
We're gonna have to pay for a hotel, oh well  
Wish we could stay all night  
Tell all your friends and bring your mom and them  
Wish we could stay all night
